Cook's Antique Lumber
168 New Milford Turnpike (Route 202)
New Preston, Ct 06777

We specialize in white pine because they make the best frames.

We offer full construction services or we can sell you a frame and material.

At Cook's, we get the best material simply because we have the best suppliers and I take the time to select each board and beam personally.

We offer the best pricing because we have the lowest overhead in the business.

“Antique lumber is more than just a business it is my passion.”

Tim Cook
